EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Norman Latker on July 18, 2008.

The application has been amended as follows:

In the substitute abstract filed May 07, 2008:

The entire abstract has been deleted and rewritten in a single paragraph as follows:

-- A screw press for pressing fibrous material, in particular sugar beet pulp, having a pair of adjacent counter-rotating shafts parallel axes, the shafts each having a helical structure winding in the opposite direction to the helical structure of the other shaft, a perforated filtering cage enclosing said helical structures, a loading hopper for feeding the fibrous material to the press, a discharge aperture for the exit of the pressed material, the helical structures having a helix (22, 32) and a helical element (23, 33), which has at least one perforated surface and a helical interspace with the outer surface of the shaft, the perforated surface having a length (L) along the axis of the shaft which is less than the pitch (P) of the helix so as to receive the helix of the adjacent shaft. --.

In claim 1, line 4:

Before "shafts", the wording, -- first and second -- has been added.

In claim 1, line 8:

“structure” has been changed to -- structures --.

In claim 1, line 20:

“characterised in that” has been changed to -- wherein --.

In claim 1, line 31:

“in which” has been changed to -- of the first shaft, wherein --.

In claim 1, line 31:

“23, 33” has been changed to -- 32, 22 --.

In claim 1, line 31:

After “adjacent”, the word -- second -- has been added.

In claim 1, the last line:

After “received”, the wording, -- in the open channel -- has been added.

In claim 7, line 3:

“helical” has been deleted.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed because the art of record, considered alone or in combination, neither anticipates nor renders obvious a screw press ... comprising: ... *said perforated surface (24, 34) having a length (L) along the axis (X-X, X'-X') of the shaft (20, 30) which at every point is less than the pitch (P) of the helix (22, 32) creating an open channel abutting the helix (22,32) of the first shaft, wherein the helix (32, 22) of the adjacent second shaft (30, 20) is received in the open channel*, in combination with the rest of the claimed limitations.

WO 03/031166A1 to Christiansen is being the closest reference to the instant invention. The screw press of Christiansen having an open channel (13), but the open channel does not abut a helix (8). Therefore, claim 1 contains an allowable subject matter over this reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JIMMY T. NGUYEN whose telephone number is (571)272-4520. The examiner can normally be reached on Monday-Thursday 7:30am-5:00pm with alternating Fri. 7:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on (571) 272- 4419. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
